ENVIRONMENTAL TECTONICS CORPORATION NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited) (Dollars in thousands, except per share data)

Description of Business

ETC is principally engaged in the design, manufacture and sale of software driven products and services used to recreate and monitor the physiological effects of motion on humans, and the design, manufacture and sale of equipment to control, modify, simulate, and measure environmental conditions. These products and services include aircrew training systems (aeromedical, tactical combat, and general), disaster management systems, sterilizers (steam and gas), environmental testing products, hyperbaric chambers, and other products and services that involve similar manufacturing techniques and engineering technologies. ETC focuses on software enhancements, product extensions, new product development, and new marketplace applications. Sales of our products are made principally to U.S. and foreign government agencies.

We operate in two primary business segments, the Training Services Group ("TSG") and the Control Systems Group ("CSG").

<u>TSG</u>: This segment includes three primary product groups: flight simulators, aircrew training devices and services, and disaster management training and systems.

<u>CSG</u>: This segment includes three primary product lines: sterilizers, environmental control devices, hyperbaric chambers, and also includes parts and service support.

The Company's fiscal year is the 52- or 53-week annual accounting period ending the last Friday in February. Certain amounts from prior consolidated financial statements have been reclassified to conform to the presentation in fiscal 2012.

1. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying interim consolidated financial statements include the accounts of ETC, our wholly-owned subsidiaries (i.e., NASTAR Center LLC, ETC Delaware, and ETC International Corporation), our 95%-owned subsidiary, ETC-PZL Aerospace Industries SP. Z 0.0, ("ETC-PZL"), and our 99%-owned subsidiary, ETC Europe. "ETC SH" refers to the Company's corporate headquarters and main production plant located in Southampton, Pennsylvania, USA. All significant inter-company accounts and transactions have been eliminated in consolidation.

The accompanying consolidated financial statements have been prepared by ETC, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"), and reflect all adjustments which, in the opinion of management, are necessary for a fair presentation of the results for the interim periods presented. All such adjustments are of a normal recurring nature.

Certain information in footnote disclosures normally included in financial statements prepared in conformity with accounting principles generally accepted in the United States of America has been condensed or omitted pursuant to such rules and regulations and the financial results for the periods presented may not be indicative of the full year's results. However, the Company believes that the disclosures are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended February 25, 2011.

References to 2012 second quarter are references to the 13-week period ended August 26, 2011. References to 2011 second quarter are references to the 13-week period ended August 27, 2010. References to the 2012 first half are references to the 26-week period ended August 26, 2011. References to the 2011 first half are references to the 26-week period ended August 27, 2010. References to fiscal 2012 or the 2012 fiscal year are references to the fifty-two week period ending February 24, 2012. References to fiscal 2011 or the 2011 fiscal year are references to the fifty-two week period ended February 25, 2011.

Significant Accounting Policies

There have been no material changes in the Company's significant accounting policies during fiscal 2012 as compared to what was previously disclosed in the Company's Annual Report on Form 10-K for the fiscal year ended February 25, 2011.

Recent Accounting Pronouncements

In June 2011, The Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income. ASU 2011-05 amends the FASB Accounting Standards CodificationTM (Codification) to allow an entity the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. In both choices, an entity is required to present each component of net income along with total net income, each component of other comprehensive income along with a total for other comprehensive income, and a total amount for comprehensive income. ASU 2011-05 eliminates the option to present the components of other comprehensive income as part of the statement of changes in stockholders' equity. The amendments to the Codification in the ASU do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income.

ASU 2011-05 will be applied retrospectively for fiscal years, and interim periods within those years, beginning after December 15, 2011.

2. Earnings per Share

The Company utilizes the two-class method for computing and presenting earnings per share. The Company currently has one class of common stock (the "Common Stock") and two classes of cumulative participating preferred stock, Series D and Series E (the "Preferred Stock"). Under its terms, the Preferred Stock is entitled to participate in any cash dividends on a one-for-one basis for the equivalent converted common shares if the Preferred Stock were to be converted by the holder by the dividend record date. Therefore, the Preferred Stock is considered a participating security requiring the two-class method for the computation and presentation of net income per share – basic.

The two-class computation method for each period segregates basic earnings per common and participating share into two categories: distributed earnings per share (i.e., the Preferred Stock stated dividend) and undistributed earnings per share, which allocates earnings after subtracting the Preferred Stock dividend to the total of weighted average common shares outstanding plus equivalent converted common shares related to the Preferred Stock. Basic earnings per common and participating share excludes the effect of Common Stock equivalents, and is computed using the two-class computation method.

Diluted earnings per share reflects the potential dilution that could result if securities or other contracts to issue Common Stock were exercised or converted into Common Stock. Diluted earnings per share continues to be computed using the if-converted method. Diluted earnings per share assumes the exercise of stock options and warrants using the treasury stock method. If the effect of the conversion of any financial instruments would be anti-dilutive, it is excluded from the diluted earnings per share calculation.

At August 26, 2011, there was \$22,127 of cumulative convertible participating Preferred Stock. These instruments were convertible at exercise prices of:

- Series D Preferred Stock of \$55 at \$0.94 per share, equating to 58,511 shares of Common Stock, issued in April 2009;
- Series D Preferred Stock of \$100 at \$1.11 per share, equating to 90,090 shares of Common Stock, issued in July 2009;
- Series D Preferred Stock of \$231 at \$3.02 per share, equating to 76,490 shares of Common Stock, issued in October 2010; and
- Series E Preferred Stock of \$21,741 at \$2.00 per share, equating to 10,870,321 shares of Common Stock, issued in July 2009.

At August 27, 2010 there was \$22,396 of cumulative convertible participating Preferred Stock. These instruments were convertible at exercise prices of:

- Series D Preferred Stock of \$55 at \$0.94 per share, equating to 58,511 shares of Common Stock, issued in April 2009;
- Series D Preferred Stock of \$100 at \$1.11 per share, equating to 90,090 shares of Common Stock, issued in July 2009; and
- Series E Preferred Stock of \$22,241 at \$2.00 per share, equating to 11,120,321 shares of Common Stock, issued in July 2009.

On February 20, 2009, in connection with the issuance of a \$2,000 promissory note, the Company issued 200,000 warrants to purchase 143,885 shares of the Company's Common Stock at \$1.39 per share. Additionally, on July 2, 2009, in consideration of an increase of the guarantee on the PNC line of credit, the Company issued 500,000 warrants to purchase 450,450 shares of the Company's Common Stock at \$1.11 per share. On January 4, 2011, the Company entered into amendments to these warrants to remove a provision in each of the warrants which provided anti-dilution protection in the event the Company issued securities at a price below the exercise price set forth in the warrants.

At August 26, 2011 and August 27, 2010, there were outstanding options to purchase the Company's Common Stock totaling 260,921 and 156,185 shares at an average price of \$4.44 and \$6.06 per share, respectively. Due to the conversion price of these Common Stock options, these shares were excluded from the calculation of diluted earnings per share because the effect of their conversion would be antidulutive.

3. Inventories

Inventories are valued at the lower of cost or market using the first in, first out (FIFO) method and consist of the following:

	2	August 26, 2011 (unaudited)		
Raw materials	\$	-	\$	-
Work in process		5,306		3,919
Finished goods		213		96
	\$	5,519	\$	4,015

Inventory is presented net of an allowance for obsolescence of \$1,413 (raw material \$124 and work in process \$1,289), and \$1,283 (raw material \$133 and work in process \$1,150) at August 26, 2011 and February 25, 2011, respectively.

In accordance with United States generally accepted accounting principles, the Company may capitalize into property, plant and equipment certain of the costs of simulation equipment. This equipment may be used to provide training or as a demonstration device to market the technology, and may be sold as a product if appropriate. Upon receipt of a contract or contracts for products which are based on this technology, certain of these costs will be transferred initially into inventory and subsequently charged to the cost of sales for that particular contract as manufacturing costs.

4. Accounts Receivable

The components of accounts receivable are as follows:

		gust 26, 2011	Feb	oruary 25, 2011
	(un	audited)		
U.S. government	\$	2,081	\$	1,936
U.S. commercial		2,043		1,295
International		2,818		1,895
		6,942		5,126
Less: allowance for doubtful accounts		(425)		(399)
	\$	6,517	\$	4,727

8

5. Long-Term Obligations and Credit Arrangements

Lenfest Financing Transaction

On April 24, 2009, the Company entered into a transaction (the "Lenfest Financing Transaction"), which was approved by shareholders on July 2, 2009, with H.F. Lenfest ("Lenfest"), a major shareholder and member of our Board of Directors, that provided for the following: (i) a \$7,500 credit facility provided by Lenfest to ETC, which expires on December 31, 2012; (ii) exchange of the \$10,000 Subordinated Note held by Lenfest, together with all accrued interest and warrants issuable under the Subordinated Note, and all Series B Preferred Stock and Series C Preferred Stock held by Lenfest, together with all accrued dividends thereon, for a new class of preferred stock, Series E Preferred Stock, of the Company; and (iii) the guarantee by Lenfest of all of ETC's obligations to PNC Bank, National Association ("PNC Bank") in connection with an increase of the Company's existing \$15,000 revolving line of credit with PNC Bank (the "2007 PNC Credit Facility") to \$20,000, and in connection with this guarantee, the pledge by Lenfest to PNC Bank of \$10,000 in marketable securities.

Lenfest Credit Facility

As part of the Lenfest Financing Transaction, the Company established a credit facility in the maximum amount of \$7,500 with Lenfest (the "Lenfest Credit Facility") to be used to finance certain government projects that ETC has been awarded. The terms of the Lenfest Credit Facility are set forth in a Secured Credit Facility and Warrant Purchase Agreement between the Company and Lenfest, dated as of April 24, 2009 (the "Lenfest Credit Agreement"). In connection with the Lenfest Credit Agreement, the Company has executed, and will in the future execute, promissory notes in favor of Lenfest, in the aggregate principal amount of up to \$7,500 (the "Lenfest Credit Facility Note") based on the amount borrowed by the Company pursuant to the Lenfest Credit Agreement. Each Lenfest Credit Facility Note issued under the Lenfest Credit Facility will accrue interest at the rate of 10% per annum, payable in cash or, at the option of Lenfest, in shares of Series D Preferred Stock of the Company, as described below. The Lenfest Credit Facility expires on December 31, 2012. As of August 26, 2011, the Company had not utilized any of the \$7,500 available funding under this facility.

Preferred Stock

Presently, the Company has two classes of Cumulative Convertible Participating Preferred Stock: Series D (11,000 shares authorized) and Series E (25,000 shares authorized) (together, the "Preferred Stock"). The Preferred Stock was authorized by the Company's Board of Directors in April 2009 and approved by the Company's shareholders in July 2009. The Preferred Stock has a par value of \$0.05 per share and a stated value of \$1,000 per share. The Preferred Stock is entitled to receive cumulative dividends at the rate of 10% per year in preference to the holders of the Company's Common Stock with respect to dividends. These dividends are payable only upon a liquidation event or when otherwise declared by the Board of Directors of the Company. The Company cannot declare or pay any dividends on its Common Stock until the dividends on the Preferred Stock have been paid. The Preferred Stock holders are entitled to receive any dividends paid with respect to the Common Stock on an "as-converted" basis. The Preferred Stock by the conversion price established at the time of issuance (see Series D Preferred Stock and Series E Preferred Stock, below). Upon a liquidation event, the holders of the Preferred Stock would be entitled to participate in any proceeds in preference to any common stock holders. The Preferred Stock would also participate in any liquidation event with the Common Stock holders on an "as-converted" basis. The Preferred Stock would also participate in any liquidation event with the Common Stock holders on an "as-converted" basis. The Preferred Stock would also participate in any liquidation event with the Common Stock holders. The Preferred Stock would also participate in any liquidation event with the Common Stock holders on an "as-converted" basis. The Preferred Stock conversion price is subject to adjustment for certain transactions including stock splits and issuance of equity securities below the conversion prices.

The Company has reviewed the generally accepted accounting principles applicable to the Preferred Stock; specifically, the Company has reviewed both ASC 480 – Distinguishing Liabilities from Equity and ASC 815 – Derivatives and Hedging. Upon its review, the Company determined that the Preferred Stock is within the control of the Company and that the attributes of the Preferred Stock are more akin to equity than debt. The specific attributes considered by the Company include the designation of the instruments, the conversion of the instruments to the Company's Common Stock, the participation feature, the non-mandatory conversion, the voting rights, and the ability to appoint directors. Secondly, the Company determined that the Preferred Stock qualifies as permanent equity because the Preferred Stock is not mandatorily redeemable, and there is no obligation to either repurchase the instruments or issue a variable amount of common shares. Lastly, the Company determined that the conversion feature qualifies for the scope exception of ASC 815 – Derivatives and Hedging as it is clearly and closely related to the Preferred Stock instrument.

Issuances of the Preferred Stock are as follows:

Series D Preferred Stock

Lenfest Credit Facility

On April 24, 2009, the Company paid to Lenfest an origination fee of 1% of the committed amount of the Lenfest Credit Facility. The value of the origination fee was \$55. The origination fee was paid in 55 shares of Series D Preferred Stock, which have a conversion price of \$0.94 per share, equaling 58,511 shares of the Company's Common Stock.

PNC Credit Facility

In connection with the execution of the documents to increase the Company's existing \$15,000 revolving line of credit with PNC Bank to \$20,000, ETC paid to Lenfest an origination fee of 100 shares of Series D Preferred Stock, which is equal to one percent (1%) of the market value of the \$10,000 in marketable securities pledged by Lenfest to PNC Bank to secure ETC's obligations to PNC Bank. The 100 shares of Series D Preferred Stock have a stated value of \$1,000 per share, or \$100 in the aggregate. These shares of Series D Preferred Stock have a conversion price per share equal to \$1.11, equaling the average closing price of the Company's Common Stock during the 120 days preceding the issuance of such shares and would convert into 90,090 shares of the Company's Common Stock.

Interest Payment

On October 6, 2010, the Company issued to Lenfest 231 shares of Series D Preferred Stock with a stated value of \$1,000 per share in payment of \$231 of interest due under the Lenfest Pledge Agreement for the period July 2, 2009 through August 27, 2010. The 231 shares have a conversion price per share equal to \$3.02 equaling the average closing price of the Company's Common Stock during the 120 days preceding the issuance of such shares, and would convert into 76,490 shares of the Company's Common Stock.

Preferred Stock Dividends

As of August 26, 2011, the Series D Preferred Stock totaled \$386 and was convertible into 225,091 shares of the Company's Common Stock. All Series D Preferred Stock dividends accruing through August 26, 2011 were paid in September 2011.

Series E Preferred Stock

In July 2009, the Company issued 23,741 shares of Series E Preferred Stock to Lenfest in connection with the Lenfest Financing Transaction. The shares of Series E Preferred Stock are convertible to Common Stock at a conversion price per share equal to \$2.00 and would convert into 11,870,391 shares of the Company's Common Stock.

On March 10, 2010, August 12, 2010 and February 9, 2011, ETC entered into three separate agreements with Lenfest to repurchase and retire a total of 2,000 shares of Series E Preferred Stock owned by Lenfest. In the three agreements, the repurchases were made at the stated price of \$1,000 per share for a total of \$2,000.

As of August 26, 2011, the Series E Preferred Stock totaled \$21,741 and was convertible into 10,870,391 shares of the Company's Common Stock. All Series E Preferred Stock dividends accruing through August 26, 2011 were paid in September 2011.

Common Stock Warrants

In February 2009, in connection with a \$2,000 loan made by Lenfest to the Company, the Company issued to Lenfest warrants to purchase 143,885 shares of ETC Common Stock, which shares were equal in value to 10% of the \$2,000 note. The warrants are exercisable for seven years following issuance at an exercise price of \$1.39, which price equaled the average closing price of ETC Common Stock during the 120 days prior to the issuance of the warrant.

In July 2009, in consideration of Lenfest's agreement to guarantee the \$5,000 increase to the Company's line of credit with PNC Bank, ETC issued to Lenfest warrants to purchase 450,450 shares of ETC Common Stock, which shares were equal in value to ten percent (10%) of the amount of the \$5,000 increase. The warrants are exercisable for seven years following issuance at an exercise price per share equal to \$1.11, equaling the average closing price of ETC Common Stock during the 120 days preceding the issuance of the warrant.

On January 4, 2011, the Company entered into amendments to each of the warrants issued to Lenfest (*i.e.* the \$2 Million Loan Warrant and the \$5 Million Warrant) pursuant to which Lenfest agreed to remove a provision in each of the warrants which provided anti-dilution protection in the event the Company issued securities at a price below the exercise price set forth in the warrants.

Bank Credit and Facility

The Company has a line of credit facility with PNC Bank ("PNC Credit Agreement") of \$20,000, which expires on June 30, 2013. The PNC Credit Agreement is subject to the condition that Lenfest continue to personally guarantee all of ETC's obligations to PNC Bank (the "Lenfest Guaranty") and that Lenfest pledge \$10,000 in marketable securities as collateral security for his guarantee (the "Lenfest Pledge").

In connection with the PNC Credit Agreement and the Lenfest Pledge, ETC paid to Lenfest an origination fee of 100 shares of Series D Convertible Preferred Stock of the Company (the "Series D Preferred Stock"), which is equal to one percent (1%) of the market value of the \$10,000 in marketable securities pledged by Lenfest to PNC Bank to secure ETC's obligations to PNC Bank. The 100 shares of Series D Preferred Stock have a stated value of \$1,000 per share, or \$100 in the aggregate. These shares of Series D Preferred Stock have a conversion price per share equal to \$1.11, which price equaled the average closing price of ETC Common Stock during the 120 days preceding the date of this warrant. Additionally, ETC will pay Lenfest annual interest equal to 2% of the amount of the Lenfest Pledge, payable in Series D Preferred Stock.

In consideration of Lenfest entering into the PNC Credit Agreement and Lenfest Pledge, ETC issued to Lenfest warrants to purchase shares of ETC Common Stock equal to 10% of the amount of a \$5,000 increase under the 2007 PNC Bank Credit Facility. The warrants are exercisable for seven years following issuance at an exercise price per share equal to \$1.11, which was equal to the average price of ETC Common Stock during the 120 days preceding the date of this warrant.

The Company recorded a loan origination deferred charge associated with these warrants of \$487 using the Black-Scholes options-pricing model with the following weighted average assumptions: expected volatility of 91.9%; risk-free interest rate of 0.49%; and an expected life of seven years. As of August 26, 2011, the unamortized balance of the deferred charge was \$187.

As of August 26, 2011, the Company's availability under the PNC Credit Agreement was \$6,786. This reflected cash borrowing under the PNC Credit Agreement of \$12,430 and outstanding letters of credit of approximately \$784. Amounts borrowed under the PNC Credit Agreement can be borrowed, repaid and reborrowed from time-to-time until June 30, 2013, and bears interest at either the prime rate plus 0.50 percentage points or the London Interbank Offered Rate ("LIBOR") plus 2.50 percentage points. Additionally, ETC is obligated to pay a fee of 0.125% per year for unused but available funds under the line of credit.

The PNC Credit Agreement has the following affirmative covenants: (i) a Consolidated Tangible Net Worth covenant, for which the Company must maintain a minimum Consolidated Tangible Net Worth of at least \$10,000 and (ii) an EBITDA covenant for which the Company must maintain a minimum cumulative aggregate Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA") of \$4,000 for the fiscal quarter then ending and the three preceding fiscal quarters. The Company is in full compliance of its covenants as of August 26, 2011.

Due to the Company's accumulated deficit, all dividends accruing for the Series D and E Preferred Stock issuances have been recorded in the accompanying financial statements as a reduction in additional paid-in capital.

Dedicated Line of Credit Agreement with PNC Bank

The Company has a committed line of credit in the amount of \$5,422 with PNC Bank (the "Dedicated Line of Credit"). The Company uses the Dedicated Line of Credit to satisfy performance bond and repayment guarantee requirements for an international contract. Use of this Dedicated Line of Credit is restricted to funding contract performance and repayment guarantee requirements under this specific contract.

As security for the Dedicated Line of Credit, the Company has deposited with PNC \$5,422 in a certificate of deposit. ETC is obligated to pay a fee of 3% per year for the Dedicated Line of Credit.

ETC-PZL Project Financing

In September 2009, ETC-PZL, located in Warsaw, Poland, entered into a project financing agreement with a Warsaw bank to fund a research and development contract with the Polish government. The amount of this facility was \$604, and it was being repaid in quarterly installments of approximately \$70, which commenced in September 2009. This facility expired in September 2011, at which time it was fully paid. Use of this line of credit was restricted to funding contract requirements under a specific research and development contract with the Polish government.

Summary of Long-Term Debt Obligations

Long-term debt obligations at August 26, 2011 and February 25, 2011 consist of the following:

	August 26, 2011			bruary 25, 2011
	(ur	naudited)		
Note payable to bank	\$	12,430	\$	3,041
ETC-PZL project financing		145		202
Equipment lease		17		49
Other long-term debt obligations		39		11
Total long-term debt obligations		12,631		3,303
Less: Current portion of long-term debt obligations		(161)		(219)
Total long-term debt obligations, less current portion	\$ 12,470		\$	3,084

6. Income Taxes

Effective tax rates were 38.4% and 0.0% for the fiscal quarters ended August 26, 2011 and August 27, 2010, respectively. Effective tax rates were 38.2% and 0.0% for the 2012 first half ended August 26, 2011 and 2011 first half ended August 27, 2010, respectively. An income tax provision of \$992 and \$952 was recorded in the first and second fiscal quarters of 2012, respectively, for a total income tax provision of \$1,944 recorded in the 2012 first half following a \$7,665 benefit recorded in the fourth fiscal quarter of 2011, which significantly reduced the valuation allowance against the Company's deferred tax asset. At the end of each interim period, we make our best estimate of the effective tax rate expected to be applicable for the full fiscal year and the impact of discrete items, if any, and adjust the quarterly rate as necessary.

Generally, accounting standards require companies to provide for income taxes each quarter based on their estimate of the effective tax rate for the full year. The authoritative guidance for accounting for income taxes allows use of the discrete method when, in certain situations, the actual interim period effective tax rate may be used if it provides a better estimate of income tax expense.

As of August 26, 2011, the Company had approximately \$25.5 million of federal net loss carryforwards available to offset future income tax liabilities.

12

7. Commitments and Contingencies

Mends International, Ltd.

On May 29, 2008, a Request for Arbitration was filed against the Company with the Secretariat of the International Court of Arbitration by Mends International Ltd. ("Mends"). Mends' Request for Arbitration arose out of a February 3, 1999 contract between the Company and Mends wherein Mends purchased aeromedical equipment for sale to the Nigerian Air Force (the "First Arbitration"). Mends asserted a claim for breach of contract and demanded approximately \$797, plus interest and costs. On September 16, 2008, Mends filed an Amended Request for Arbitration, adding tort claims for conversion and breach of fiduciary duty and seeking punitive damages of approximately \$2,400. In response, the Company asserted a counterclaim seeking damages for other disputes with Mends that have arisen under the contract that Mends has put at issue in this arbitration. On July 1, 2010 and October 18, 2010, the International Court of Arbitration issued a Partial Final Award and an Award on Costs, which have been fully accrued.

In September 2010, a second arbitration involving ETC and Mends was heard by the International Court of Arbitration (the "Second Arbitration"). In the Second Arbitration, the Company alleged the breach of a separate contract between the parties and sought monetary damages. On September 5, 2011, the International Court of Arbitration issued an award in the Second Arbitration, which is the final arbitration award involving ETC and Mends. The awards in the First Arbitration and Second Arbitration, taken together, require the Company to pay Mends approximately \$950, an amount which has been fully accrued and, accordingly, did not have a material adverse effect on the Company's financial condition or results of operation.

ITAR Disclosure

Subsequent to February 25, 2011, the Company submitted an initial notification of voluntary disclosure to the Directorate of Defense Trade Controls within the U.S. Department of State (DDTC) concerning the potential export of technical data and defense services to foreign persons. The services at issue (which constitute less than 0.5% of the Company's total annual sales) consisted of the provision of low gravitational force training in a human-rated centrifuge. The human-rated centrifuge is subject to the jurisdiction of DDTC in accordance with the International Traffic in Arms Regulations (ITAR). The Company filed the initial notification because we determined that the training programs may be subject to the jurisdiction of the ITAR. On June 30, 2011, we provided a full disclosure to DDTC. On July 20, 2011, the Enforcement Division of the Office of Defense Trade Controls Compliance notified the Company that the case would be closed without further action and without the assessment of any fines or other penalties.

Other Matters

Certain other claims, suits, and complaints arising in the ordinary course of business have been filed or are pending against us. We believe, after consultation with legal counsel handling these specific matters, all such matters are reserved for or adequately covered by insurance or, if not so covered, are without merit or are of such kind, or involve such amounts, as would not be expected to have a significant effect on our financial position or results of operations if determined adversely against us.

Net income attributable to Environmental Tectonics Corporation

8. Segment Information (unaudited)

The Company operates in two business segments – TSG and CSG. Product groups within TSG include flight simulators, aircrew training devices and services, and disaster management training and systems. Product groups within CSG include sterilizers, environmental control devices, hyperbaric chambers, and parts and service support.

The following unaudited segment information reflects the accrual basis of accounting.

Approximately 68.1% of sales in the thirteen weeks ended August 26, 2011, totaling \$10,796, were made to the U.S. Government under three contracts, to one Domestic commercial customer, and to one International customer. Approximately 74.4% of sales in the thirteen weeks ended August 27, 2010, totaling \$9,860, were made to the U.S. Government under three contracts and to one International customer.

The segment information for the thirteen weeks ended August 26, 2011 includes export sales of \$4,611, including sales to the Korean government for \$1,846. The segment information for the thirteen weeks ended August 27, 2010 includes export sales of \$4,239, including sales to the Korean government for \$3,373.

Approximately 68.5% of sales in the twenty-six weeks ended August 26, 2011, totaling \$22,016, were made to the U.S. Government under three contracts, to one Domestic commercial customer, and to one International customer. Approximately 71.5% of sales in the twenty-six weeks ended August 27, 2010, totaling \$18,139, were made to the U.S. Government under three contracts and to one International customer.

The segment information for the twenty-six weeks ended August 26, 2011 includes export sales of \$8,978, including sales to the Korean government for \$3,904. The segment information for the twenty-six weeks ended August 27, 2010 includes export sales of \$9,456, including sales to the Korean government for \$7,847.

As of both August 26, 2011 and August 27, 2010, substantially all of the Company's long-lived assets were located in the United States.

9. Subsequent Events

We have evaluated events and transactions that occurred subsequent to August 26, 2011 through the date the financial statements were issued, for potential recognition or disclosure. Other than the disclosures in Note 7 above, we did not identify any events or transactions that should be recognized or disclosed in the accompanying financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

FORWARD-LOOKING STATEMENTS

Discussions of some of the matters contained in this Quarterly Report on Form 10-Q for ETC may constitute forward-looking statements within the meaning of the Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities and Exchange Act of 1934, as amended (the "Exchange Act"), and, as such, may involve risks and uncertainties. We have based these forward-looking statements on our current expectations and projections about future events or future financial performance, which include implementing our business strategy, developing and introducing new technologies, obtaining, maintaining and expanding market acceptance of the technologies we offer, and competition in our markets. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about ETC and its subsidiaries that may cause actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements.

These forward-looking statements include statements with respect to the Company's vision, mission, strategies, goals, beliefs, plans, objectives, expectations, anticipations, estimates, intentions, financial condition, results of operations, future performance and business of the Company, including, but not limited to, (i) projections of revenues, costs of materials, income or loss, earnings or loss per share, capital expenditures, growth prospects, dividends, capital structure, other financial items and the effects of currency fluctuations, (ii) statements of our plans and objectives of the Company or its management or Board of Directors, including the introduction of new products, or estimates or predictions of actions of customers, suppliers, competitors or regulatory authorities, (iii) statements of future economic performance, (iv) statements of assumptions and other statements about the Company or its business, (v) statements made about the possible outcomes of litigation involving the Company, (vi) statements regarding the Company's ability to obtain financing to support its operations and other expenses, and (vii) statements preceded by, followed by or that include terminology such as "may," "will," "should," "expect," "plan," "anticipate," "believe," "estimate," "future," "predict," "potential," "intend," or "continue," and similar expressions. These forward-looking statements involve risks and uncertainties which are subject to change based on various important factors. Some of these risks and uncertainties, in whole or in part, are beyond the Company's control. Factors that might cause or contribute to such a material difference include, but are not limited to, those discussed in our Annual Report on Form 10-K for the fiscal year ended February 25, 2011, in the section entitled "Risk Factors." Shareholders are urged to review these risks carefully prior to making an investment in the Company's Common Stock.

The Company cautions that the foregoing list of factors that could affect forward-looking statements by ETC is not exclusive. Except as required by federal securities law, the Company does not undertake to update any forward-looking statement, whether written or oral, that may be made from time to time by or on behalf of the Company.

Overview

We are principally engaged in the design, manufacture and sale of software driven products and services used to recreate and monitor the physiological effects of motion on humans, and the design, manufacture and sale of equipment to control, modify, simulate, and measure environmental conditions. These products and services include aircrew training systems (aeromedical, tactical combat, and general), disaster management systems, sterilizers (steam and gas), environmental testing products, hyperbaric chambers, and other products and services that involve similar manufacturing techniques and engineering technologies. We are a designer, developer, and contract manufacturer of various types of high-technology equipment. Our business activities are divided into two segments: the Training Services Group (TSG) and the Control Systems Group (CSG). Product categories included in TSG are pilot training and flight simulators, and disaster management systems. CSG includes sterilizers, environmental control devices, hyperbaric chambers, and parts and service support.

We sell utilizing two business approaches: integrated training services and products. Some of our products are customized, using our proprietary software based on specifications provided by our customers. Some of our products take more than one year to manufacture and deliver to the customer. In the TSG segment, we offer integrated training services to both commercial and government military defense agencies and training devices to government military defense agencies both in the United States and internationally. We sell our disaster management simulation training and products to fire and emergency training schools and state and local governments. In the CSG segment, we sell our sterilizers to pharmaceutical and medical device manufacturers. We sell our environmental testing systems primarily to commercial automobile manufacturers and heating, ventilation and air conditioning (HVAC) manufacturers. We sell our hyperbaric products to the military (mainly multiple occupant "multiplace" chambers) and hospitals and clinics (mainly single occupant "monoplace" chambers). To a lesser degree, we provide upgrade, maintenance and repair services for our products and for products manufactured by other parties.

Index

We currently market our products and services primarily through our sales offices and employees. In addition, we also utilize the services of approximately 100 independent sales representatives and organizations throughout the world in seeking foreign orders for our products.

We have operating subsidiaries in Turkey and Poland, and maintain regional offices in the United Kingdom, Middle East, Asia and Canada. ETC International Corporation is a holding company established for federal income tax purposes and is not an operating subsidiary.

The following factors had an impact on our financial performance, cash flow and financial position for the 2012 first half ended August 26, 2011:

Increased production under U.S. Government contracts

The Base Realignment and Closure (BRAC) Act passed by Congress in 2005 mandated base closures and consolidations through all the U.S. defense services. As a result of this Act, in the past two years we have been awarded three major contracts for pilot training simulators. Our fiscal 2012 opening backlog of firm orders included approximately \$64.2 million for three significant contracts including one from the U.S. Navy for a research disorientation device and two from the U.S. Air Force to provide a high performance human centrifuge and a suite of research altitude chambers. As a result of engineering and production activity on these three contracts, sales to the U.S. Government increased by \$5.5 million or 52.4% during the 2012 first half versus the 2011 first half. Although at the current time we have a significant sales backlog with the U.S. Government for equipment being procured under the BRAC Act, given the current domestic economic conditions and political environment, it should not be assumed that any additional contracts will be awarded to us. This increased manufacturing activity also resulted in the utilization of cash in operating activities of \$3.8 million in the 2012 first half.

• Provisions for Income Tax

During fiscal 2011, an income tax benefit of \$7.7 million was reflected in our Consolidated Statement of Income. This reflected a reduction in our deferred tax valuation allowance of \$7.7 million, recorded as a result of our increase in booked contracts and our positive operating results. The Company recorded an income tax provision of \$1.0 million in each of the first and second fiscal quarters of 2012, respectively, for a total income tax provision of \$2.0 million in the 2012 first half, reducing the Company's net loss carryforwards, which were \$25.5 million at August 26, 2011.

Critical Accounting Policies

The discussion and analysis of the Company's financial condition and results of operation are based upon the Company's consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these consolidated financial statements requires the Company to make estimates and judgments that affect the reported amount of assets and liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities at the date of the Company's condensed financial statements. Actual results may differ from these estimates under different assumptions or conditions.

Critical accounting policies are defined as those that reflect significant judgments and uncertainties, and potentially result in materially different results under different assumptions and conditions. For a detailed discussion on the application of these and other accounting policies, see Note 2 to the Consolidated Financial Statements, entitled Summary of Significant Accounting Policies, in the Company's Annual Report on Form 10-K for the fiscal year ended February 25, 2011.

Results of Operations

Thirteen weeks ended August 26, 2011 compared to thirteen weeks ended August 27, 2010

We have historically experienced significant variability in our quarterly revenue, earnings and other operating results, and our performance may fluctuate significantly in the future.

Net Income

Net income attributable to ETC was \$1.5 million, or \$0.05 diluted earnings per share, in the 2012 second quarter, compared to \$1.7 million, or \$0.05 diluted earnings per share, during the 2011 second quarter, representing a decrease of \$144 thousand, or 8.6%. The decline in net income includes an increase in income before income taxes of \$810 thousand, primarily a result of increased gross profit on higher sales in the 2012 second quarter, which was more than offset by increased operating expenses of \$377 thousand and, more significantly, a provision for income taxes of \$1.0 million. There was no provision for income taxes in the 2011 second quarter.

Sales

The following schedule presents the Company's unaudited sales by segment, business unit, and geographic area (amounts in thousands):

Company Total	\$	2,756	\$	8,484	\$	4,611	\$	15,851	\$	2,418	\$	6,587	\$	4,239	\$	13,244

Sales for the 2012 second quarter were \$15.9 million, an increase of \$2.7 million, or 19.7%, over the 2011 second quarter sales of \$13.2 million. The increase reflects increased sales in the U.S. Government, Domestic and to a lesser extent, International markets.

Domestic Sales

Domestic sales in the 2012 second quarter were \$2.8 million, an increase of \$338 thousand, or 14.0%, over the 2011 second quarter sales of \$2.4 million. The Domestic sales increase is due primarily to an increase in Sterilizer and Simulation product sales, as well as Pilot Training Systems and Services, offset in part, by a decrease in Hyperbaric product sales within the CSG segment. Domestic sales represented 17.4% of the Company's total sales in the 2012 second quarter, and 18.3% of the Company's total sales in the 2011 second quarter.

U.S. Government Sales

U.S. Government sales in the 2012 second quarter were \$8.5 million, as compared to 2011 second quarter sales of \$6.6 million, an increase of \$1.9 million, or 28.8%, and represented 53.5% of total sales in the 2012 second quarter versus 49.7% for the 2011 second quarter. This increase is largely the result of sales of the Company's Pilot Training Systems products under significant contracts from the U.S. Air Force to provide a high performance human centrifuge and a suite of research altitude chambers and from the U.S. Navy for a research disorientation device.

International Sales

International sales, including sales by the Company's Poland subsidiary, for the 2012 second quarter, were \$4.6 million as compared to \$4.2 million in the 2011 second quarter, an increase of \$372 thousand, or 8.8%, and represented 29.1% of total sales, as compared to 32.0% in the 2011 second quarter. The International increase in sales primarily reflects higher Hyperbaric product sales and sales of ETC-PZL, offset, in part, by decreases in Environmental product sales and lower Pilot Training System sales. International sales in the 2012 second quarter include \$1.8 million in sales to the Korean government. International sales in the 2011 second quarter included sales to the Korean government of \$3.4 million. Fluctuations in sales to international countries from year to year primarily reflect percentage of completion ("POC") revenue recognition, which depend upon the level and stage of development and production on multi-year long-term contracts.

Gross Profit

Gross profit for the 2012 second quarter was \$5.9 million as compared to \$4.8 million in the 2011 second quarter, an increase of \$1.1 million, or 23.5%. The improvement in gross profit resulted from increased sales in U.S. Governmental, Domestic and International markets. Gross profit margin as a percentage of sales for the 2012 second quarter was 37.3%, as compared to 36.2% for the same period a year ago. The 1.1 percentage point increase in the gross profit margin primarily reflects higher sales of international products and increased training services.

Selling and Marketing Expenses

Selling and marketing expenses for the 2012 second quarter were \$1.3 million as compared to \$1.0 million in the 2011 second quarter, an increase of \$316 thousand, or 31.0%. As a percentage of net sales, selling and marketing expenses increased from 7.7% in the 2011 second quarter to 8.4% in the 2012 second quarter. The dollar increase is primarily a result of the employment of additional sales people, offset in part by reduced commissions due to the higher percentage of product mix in the current fiscal quarter of U.S. Government sales.

General and Administrative Expenses

General and administrative expenses for the 2012 second quarter were \$1.8 million as compared to \$1.6 million in the 2011 second quarter, an increase of \$165 thousand, or 10.2%. As a percentage of net sales, general and administrative expenses decreased to 11.2% in the 2012 second quarter from 12.3% in the 2011 second quarter. The dollar increase is primarily a result of increases in salaries.

Research and Development Expenses

Research and development expenses, which are charged to operations as incurred, were \$136 thousand in the 2012 second quarter, as compared to \$240 thousand in the 2011 second quarter. Most of the Company's research efforts, which were and continue to be a significant cost of its business, are included in cost of sales for applied research for specific contracts, as well as research for feasibility and technology updates. The decrease was a result of more research and development expenses included in the cost of sales in the 2012 second quarter as compared to the 2011 second quarter.

Operating Income

Operating income increased by \$748 thousand, or 39.1%, to \$2.7 million in the 2012 second quarter, which represented a combination of higher sales volume and gross profit, and reduced operating expenses as a percentage of net sales.

On a segment basis, the TSG had an operating income of \$1.9 million in the 2012 second quarter, a \$566 thousand improvement over the segment operating income of \$1.4 million in the 2011 second quarter. The CSG had operating income of \$1.1 million in 2012 second quarter, an increase of \$296 thousand over the 2011 second quarter. These segment operating results were offset, in part, by unallocated corporate expenses of \$389 thousand and \$275 thousand in the 2012 and 2011 second fiscal quarters, respectively.

Interest Expense, Net

Interest expense, net, for the 2012 second quarter was \$207 thousand as compared to \$189 thousand for the 2011 second quarter, representing an increase of \$18 thousand, or 9.5%, reflecting a higher level of bank borrowing as a result of cash used in operations, primarily for costs and estimated earnings in excess of uncompleted long-term contracts.

Other, Net

Other income, net, was \$24 thousand for the 2012 second quarter versus an expense of \$56 thousand for the 2011 second quarter. The income consists primarily of a letter of credit refund and foreign currency exchange gains compared to losses in the fiscal second quarter of 2011.

Income Taxes

As of August 26, 2011, the Company reviewed the components of it deferred tax assets and determined, based upon all available information, that its current and expected future operating income will more likely than not result in the realization of its deferred tax assets relating primarily to its net operating loss carryforwards. The Company has a net deferred tax asset related to its net operating loss carryforwards of \$8.4 million. Income tax provisions of \$1.0 million were recorded in the 2012 second quarter. This follows a \$7.7 million benefit recorded in the 2011 fourth fiscal quarter, which significantly reduced the valuation allowance against the Company's deferred tax asset. Due to the utilization of net operating loss carry forwards available, and valuation allowances on the deferred tax asset in the 2011 first half, the Company did not record an income tax provision on income in the 2011 first half.

As of August 26, 2011, the Company had approximately \$25.5 million of federal net loss carry forwards available to offset future income tax liabilities, beginning to expire in 2025. In addition, the Company has the ability to offset deferred tax assets against deferred tax liabilities created for such items as depreciation and amortization.

Results of Operations

Twenty-six weeks ended August 26, 2011 compared to twenty-six weeks ended August 27, 2010

We have historically experienced significant variability in our quarterly revenue, earnings and other operating results, and our performance may fluctuate significantly in the future.

Net Income

Net income attributable to ETC was \$3.1 million, or \$0.10 diluted earnings per share, in the 2012 first half, compared to \$3.6 million, or \$0.12 diluted earnings per share, during the 2011 first half, representing a decrease of \$471 thousand, or 13.1%. The decline in net income includes a significant increase in income before income taxes of \$1.5 million, primarily a result of increased gross profit on higher sales in the 2012 first half; this was offset by increased operating expenses of \$1.1 million and, more significantly, a provision for income taxes of \$2.0 million. There was no provision for income taxes in the 2011 first half.

Sales

The following schedule presents the Company's unaudited sales by segment, business unit, and geographic area (amounts in thousands):

Total		5,718		3,596		2,751		12,065		4,922		1,618		2,218		8,758
Company Total	\$	7,030	\$	16,117	\$	8,978	\$	32,125	\$	5,336	\$	10,573	\$	9,456	\$	25,365

Sales for the 2012 first half were \$32.1 million, an increase of \$6.7 million, or 26.7%, over the 2011 first half sales of \$25.4 million. The increase reflects increased sales in the Domestic and U.S. Government markets offset, in part, by a decline in International sales.

Domestic Sales

Domestic sales in the 2012 first half were \$7.0 million, an increase of \$1.7 million, or 31.7%, over the 2011 first half sales of \$5.3 million. The Domestic sales increase is due primarily to an increase in Sterilizer and Simulation product sales, as well as Pilot Training Systems and Services, offset in part, by a decrease in Hyperbaric product sales within the CSG segment. Domestic sales represented 21.9% of the Company's total sales in the 2012 first half.

U.S. Government Sales

U.S. Government sales in the 2012 first half were \$16.1 million, as compared to the 2011 first half sales of \$10.6 million, an increase of \$5.5 million, or 52.4%, and represented 50.2% of total sales in the 2012 first half versus 41.7% for the 2011 first half. This increase is largely the result of sales of the Company's Pilot Training Systems products under significant contracts from the U.S. Air Force to provide a high performance human centrifuge and a suite of research altitude chambers and from the U.S. Navy for a research disorientation device.

International Sales

International sales, including sales by the Company's Poland subsidiary, for the 2012 first half, were \$9.0 million as compared to \$9.5 million in the 2011 first half, a decrease of \$478 thousand, or 5.1%, and represented 27.9% of total sales for the 2012 first half, as compared to 37.3% in the 2011 first half. The International decline in sales primarily reflects lower Pilot Training System and Environmental product sales offset, in part, by increases in Hyperbaric product sales. International sales in the 2012 first half include \$3.9 million in sales to the Korean government. International sales in the 2011 first half include sales to the Korean government of \$7.8 million. Fluctuations in sales to international countries from year to year primarily reflect POC revenue recognition, which depend upon the level and stage of development and production on multi-year long-term contracts.

Gross Profit

Gross profit for the 2012 first half was \$12.4 million as compared to \$9.9 million in the 2011 first half, an increase of \$2.5 million, or 25.1%. The improvement in gross profit resulted from increased sales in both U.S. Governmental and Domestic sales, which were partially offset by the reduction in higher margin International sales. Gross profit margin as a percentage of sales for the 2012 first half was 38.7% compared to 39.1% for the same period a year ago. The 0.4 percentage point reduction in the gross profit margin primarily reflects lower sales of international products.

Selling and Marketing Expenses

Selling and marketing expenses for the 2012 first half were \$2.6 million as compared to \$2.1 million in the 2011 first half, an increase of \$505 thousand, or 23.8%. As a percentage of net sales, selling and marketing expenses decreased from 8.4% in the 2011 first half to 8.2% in the 2012 first half. The dollar increase is primarily a result of the employment of additional sales people, offset in part by reduced commissions due to the product mix shift in the current fiscal half to U.S. Government sales.

General and Administrative Expenses

General and administrative expenses for the 2012 first half were \$3.9 million as compared to \$3.1 million in the 2011 first half, an increase of \$789 thousand, or 25.6%. As a percentage of net sales, general and administrative expenses decreased slightly to 12.1% in the 2012 first half from 12.2% in the 2011 first half. The dollar increase is primarily a result of increases in salaries, European operations, audit and consulting expenses.

Research and Development Expenses

Research and development expenses, which are charged to operations as incurred, were \$381 thousand in the 2012 first half, as compared to \$564 thousand in the 2011 first half. Most of the Company's research efforts, which were and continue to be a significant cost of its business, are included in cost of sales for applied research for specific contracts, as well as research for feasibility and technology updates. The decrease was a result of more research and development expenses included in the cost of sales in the 2012 first half compared to the 2011 first half.

Operating Income

Operating income increased by \$1.4 million, or 33.3%, to \$5.5 million in the 2012 first half, which represented a combination of higher sales volume and gross profit, and reduced operating expenses as a percentage of net sales.

On a segment basis, the TSG had an operating income of \$3.8 million in the 2012 first half, a \$1.0 million improvement over the segment operating income of \$2.8 million in the 2011 first half. The CSG had operating income of \$2.5 million in 2012 first half, an increase of \$574 thousand over the 2011 first half. These segment operating results were offset, in part, by unallocated corporate expenses of \$773 thousand and \$553 thousand in 2012 and 2011 fiscal first halves, respectively.

Interest Expense, Net

Interest expense, net, for the 2012 first half was \$357 thousand as compared to \$417 thousand for the 2011 first half, representing a decrease of \$60 thousand, or 14.4%, reflecting reduced bank borrowing, particularly during the first quarter as a result of positive cash flow during fiscal 2011.

Other Expense, Net

Other expense, net, was \$84 thousand for the 2012 first half versus \$128 thousand for the 2011 first half. These expenses consist primarily of bank and letter of credit fees as well as foreign currency exchange gains or losses and the decrease is primarily a result of a letter of credit refund.

Income Taxes

As of August 26, 2011, the Company reviewed the components of it deferred tax assets and determined, based upon all available information, that its current and expected future operating income will more likely than not result in the realization of its deferred tax assets relating primarily to its net operating loss carryforwards. The Company has a net deferred tax asset related to its net operating loss carryforwards of \$8.4 million. Income tax provisions of \$2.0 million were recorded in the 2012 first half. This follows a \$7.7 million benefit recorded in the 2011 fourth fiscal quarter, which significantly reduced the valuation allowance against the Company's deferred tax asset. Due to the utilization of net operating loss carry forwards available, and valuation allowances on the deferred tax asset in the 2011 first half, the Company did not record an income tax provision on income in the 2011 first half.

As of August 26, 2011, the Company had approximately \$25.5 million of federal net loss carry forwards available to offset future income tax liabilities, beginning to expire in 2025. In addition, the Company has the ability to offset deferred tax assets against deferred tax liabilities created for such items as depreciation and amortization.

Liquidity and Capital Resources

As a result of an elevated level of production to satisfy the requirements of long-term contracts in the Company's backlog of \$105.5 million that existed at February 25, 2011, the Company borrowed under its line of credit to fund operating activities during the 2012 first half. The Company's availability at August 26, 2011 was \$6.8 million under its line of credit with PNC. Working capital, or current assets less current liabilities, was \$22.9 million at August 26, 2011 compared with \$11.1 million at February 25, 2011. The Company's current ratio, current assets divided by current liabilities, improved to 2.1:1 at August 26, 2011 from 1.6:1 at February 25, 2011.

With unused availability under the PNC Bank line of credit and the \$7.5 million Lenfest Credit Facility, and the Company's ability to generate cash from operations, the Company anticipates these sources of liquidity will be sufficient to fund its operating activities, anticipated capital expenditures and debt repayment obligations for the next twelve months.

The schedule below j	presents the Comp	anv's available b	orrowings under it	s existing credit	facilities (amounts i	n thousands):

	As of August 26, 2011					As of February 25, 2011							
<u>Credit facility*</u>]	Total Facility		Amount Borrowed	A	Amount vailable**		Total Facility		Amount Borrowed	A	Amount vailable**	
PNC line of credit	\$	20,000	\$	12,430	\$	6,786	\$	20,000	\$	3,041	\$	15,688	
Lenfest credit line		7,500		-		7,500		7,500		-		7,500	
Dedicated line of credit		5,422		5,422		-		5,422		5,422		-	
Total	\$	32,922	\$	17,82	\$	14,286	\$	32,922	\$	8,463	\$	23,188	

*See Note 5 to the Consolidated Unaudited Financial Statements, entitled Long-Term Obligations and Credit Arrangements, in this quarterly report on Form 10-Q.

** Amount available takes into account letters of credit outstanding against the PNC line of credit of \$784 thousand and \$1.3 million as of August 26, 2011 and February 25, 2011, respectively.

The Company expects to meet its long-term obligations through cash flow from operations and from increasing borrowing capacity resulting from the Company's anticipated strengthening equity position and modest leverage.

Cash flows from operating activities

Cash flow from operating activities is driven by income from sales of our products offset by the timing of receipts and payments in the ordinary course of business.

During the 2012 first half, as a result of elevated production levels to meet the requirements of the \$105.5 million backlog at February 25, 2011, the Company utilized \$3.8 million of cash in operating activities versus cash provided by operating activities of \$5.7 million for the 2011 first half. Cash was utilized primarily in the increase in cost and estimated earnings in excess of billings on uncompleted long-term POC contracts. Under POC revenue recognition, this account represents the timing differences of spending on production activities versus collecting on long-term contracts. Increased inventories purchased for projects also utilized cash during the period.

Cash flows from investing activities

Cash used for investing activities primarily relates to funds used for capital expenditures in property and equipment and software development. The Company's investing activities used \$1.1 million in the 2012 first half and consisted primarily of costs for the acquisition of computer equipment and the manufacturing of demonstration simulators for our NASTAR Center coupled with software enhancements for our Advanced Tactical Fighter Systems technology. This compares with cash used in investing activities of \$1.0 million in the 2011 first half.

Cash flows from financing activities

The Company's financing activities provided \$8.2 million of cash during the 2012 first half. This primarily reflected borrowings under the Company's PNC line of credit to fund the higher level of activity that was offset, in part, by dividends paid on Preferred Stock. In the 2011 first half, net cash utilized in financing activities totaled \$6.7 million, primarily for repayments under the line of credit, the repurchase of Preferred Stock and increase in restricted cash.

Outlook

We expect to use our cash, cash equivalents, and credit facilities for working capital and general corporate purposes, products, product rights, technologies, property, plant and equipment, the payment of contractual and other legal obligations, including scheduled interest payments on our credit facilities and dividends on our Preferred Stock, the potential acquisition of businesses, and/or the purchase, redemption or retirement of our credit facilities and Preferred Stock. We expect that net sales of our currently marketed products, combined with availability under our lines of credit, should continue to provide us sufficient funds in fiscal 2012. At this time, however, we cannot accurately predict the effect of certain developments on our anticipated rate of sales growth in 2013 and beyond, because of factors such as the degree of market acceptance, the impact of competition, the effectiveness of our sales and marketing efforts, and the outcome of our efforts to develop our products.

At the end of each fiscal quarter in fiscal 2012 and through the current term of the PNC Bank line of credit we expect to maintain, per bank covenant requirement, a minimum aggregate EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) of \$4 million for the fiscal quarter then ending and the three immediately preceding fiscal quarters.

Backlog

Below is a breakdown of the Company's August 26, 2011 and February 25, 2011 sales backlog (unaudited - amounts in thousands except percentages):

August 26, 2011	Business	segn	ient		
Geographic area:	 TSG		CSG	Total	%
Domestic	\$ 1,171	\$	11,164	\$ 12,335	14.1
US Government	18,928		31,407	50,335	57.5
International	20,849		3,951	24,800	28.4
Total	\$ 40,948	\$	46,522	\$ 87,470	100.0
% of total	46.8%	, <u> </u>	53.2%	 100.0%	
February 25, 2011	 Business	segn	nent		
Geographic area:	 TSG		CSG	 Total	%

Geographic area:	13G	CSG	Total	% 0
Domestic	\$ 1,352	\$ 6,972	\$ 8,324	7.9
US Government	30,956	35,004	65,960	62.5
International	25,785	5,465	31,250	29.6
Total	\$ 58,093	\$ 47,441	\$ 105,534	100.0
% of total	 55.0%	 45.0%	 100.0%	

Our sales backlog at August 26, 2011 and February 25, 2011 for work to be performed and revenue to be recognized under written agreements after such dates was \$87.5 million and \$105.5 million, respectively. Of the August 26, 2011 sales backlog, approximately \$17.9 million represents one International contract for multiple aircrew training simulators. Approximately 99.2% of the U.S. Government backlog relates to three contracts.

The Company's order flow does not follow any seasonal pattern as the Company receives orders in each fiscal quarter of its fiscal year.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Not applicable.

Item 4. Controls and Procedures

As of the end of the period covered by this report, our Chief Executive Officer and Chief Financial Officer evaluated our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Disclosure controls and procedures are designed to provide reasonable assurance that the information required to be disclosed in the reports we file under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and (ii) is accumulated and communicated to management as appropriate to allow timely decisions regarding required disclosures. A controls system cannot provide absolute assurances, however, that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that ETC's disclosure controls and procedures were effective as of the end of the period covered by this report.

Internal Control over Financial Reporting:

There was no change in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our most recently completed fiscal quarter that has materially affected, or is reasonably expected to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

Mends International, Ltd.

On May 29, 2008, a Request for Arbitration was filed against the Company with the Secretariat of the International Court of Arbitration by Mends International Ltd. ("Mends"). Mends' Request for Arbitration arose out of a February 3, 1999 contract between the Company and Mends wherein Mends purchased aeromedical equipment for sale to the Nigerian Air Force (the "First Arbitration"). Mends asserted a claim for breach of contract and demanded approximately \$797,000 plus interest and costs. On September 16, 2008, Mends filed an Amended Request for Arbitration, adding tort claims for conversion and breach of fiduciary duty and seeking punitive damages of approximately \$2,400,000. In response, the Company asserted a counterclaim seeking damages for other disputes with Mends that have arisen under the contract that Mends has put at issue in this arbitration. On July 1, 2010 and October 18, 2010, the International Court of Arbitration issued a Partial Final Award and an Award on Costs, which have been fully accrued.

In September 2010, a second arbitration involving ETC and Mends was heard by the International Court of Arbitration (the "Second Arbitration"). In the Second Arbitration, the Company alleged the breach of a separate contract between the parties and sought monetary damages. On September 5, 2011, the International Court of Arbitration issued an award in the Second Arbitration, which is the final arbitration award involving ETC and Mends. The awards in the First Arbitration and Second Arbitration, taken together, require the Company to pay Mends approximately \$950,000, an amount which has been fully accrued and, accordingly, did not have a material adverse effect on the Company's financial condition or results of operation.

ITAR Disclosure

Subsequent to February 25, 2011, the Company submitted an initial notification of voluntary disclosure to the Directorate of Defense Trade Controls within the U.S. Department of State (DDTC) concerning the potential export of technical data and defense services to foreign persons. The services at issue (which constitute less than 0.5% of the Company's total annual sales) consisted of the provision of low gravitational force training in a human-rated centrifuge. The human-rated centrifuge is subject to the jurisdiction of DDTC in accordance with the International Traffic in Arms Regulations (ITAR). The Company filed the initial notification because we determined that the training programs may be subject to the jurisdiction of the ITAR. On June 30, 2011, we provided a full disclosure to DDTC. On July 20, 2011, the Enforcement Division of the Office of Defense Trade Controls Compliance notified the Company that the case would be closed without further action and without the assessment of any fines or other penalties.

Other Matters

Certain other claims, suits, and complaints arising in the ordinary course of business have been filed or are pending against us. We believe, after consultation with legal counsel handling these specific matters, all such matters are reserved for or adequately covered by insurance or, if not so covered, are without merit or are of such kind, or involve such amounts, as would not be expected to have a significant effect on our financial position or results of operations if determined adversely against us.
